## **An Exciting New Benefit for All Nassau County Residents:**

### **The NassauRx Prescription Discount Card**

Life is about to get a little more affordable for all Nassau residents who pay retail for prescription drugs. Beginning this summer, the new **NassauRx** prescription drug discount card will be mailed to every Nassau County household, regardless of age, insurance coverage, or income level.

Developed by the Comptroller's Office for Nassau County residents, and administered by one of the nation's leading private pharmacy benefit managers, **NassauRx** is a drug discount card, not an insurance card. And you don't have to be a senior to use it – it's for everyone! With the **NassauRx** card, county residents can save an average of 20 percent on almost all prescription medications, and up to 50 percent on generic drugs, at more than 75 percent of Nassau pharmacies.

The **NassauRx** card is free and requires no enrollment forms or fees (your pharmacist will process it). It can be used immediately, and there are no limits or scheduled termination date. Simply present the **NassauRx** card when you purchase prescription drugs at participating pharmacies. The card is also accepted at more than 48,000 drugstores nationwide and can also be used to purchase discount mail-service drugs and diabetic supplies.

Even if you already have prescription drug coverage, you can still use the card on drugs that are more expensive or not covered under your plan. After July 1, call 1-877-321-2652 or visit <https://nassaurx.advancerx.com> online to have your questions about the NassauRx program answered.

The **NassauRx** discount card program is endorsed by County Executive Tom Suozzi, and approved by the Nassau County Legislature. The program addresses the needs of the more than 250,000 people in Nassau without health insurance, or whose insurance coverage for prescription drugs is less than adequate, without cost to the county.

**Watch for your NassauRx card and information packet in the mail in early July!**
